Mendix Developer Haarlem

Description
As a Mendix Developer you will work as part of a team to improve our entire platform and make it optimally aligned with our primary processes.
You will play an important role in the design, improvement and rebuilding of our entire platform.
You will quickly get to know our business and primary processes and know how to translate innovative ideas together with the team into future-proof solutions and systems.
In this you take the rest of the team along and share your knowledge and experience.

Responsibilities
What problem will the candidate solve?
You will solve problems by improving and optimizing our platform and by translating innovative ideas into future-proof solutions and systems.

Qualifications
The ideal candidate has at least **3 years of Mendix experience** and is at least **Mendix advanced developer certified**.
He or she has HBO/WO work and thinking level, is analytically strong and able to develop clear future-proof solutions.
The candidate dares to take ownership of the IT platform and is willing to take our dev team to the next level.
Communicative skills (professional and social) and used to working in an *agile* team.
